

The Desk Reset Card

Ten minutes to undo eight hours of hunching - your neck and hips will thank you. 10 minutes, no equipment. Print it, stick it next to your monitor.

Main

Chin Tuck

1. Sit or stand tall with your shoulders relaxed and eyes looking straight ahead.
2. Without tilting your head up or down, glide your chin straight back - imagine making a gentle double chin.
3. You should feel a light stretch at the base of the skull and gentle work at the front of the neck.
4. Hold for 3-5 seconds, then relax back to neutral.
5. Repeat slowly - quality over speed.

Wall Angel

1. Stand with your back against a wall, feet a few centimeters away, lower back gently flattened.
2. Press the back of your head, upper back, and hips lightly into the wall.
3. Raise your arms into a goalpost shape with the backs of your hands and elbows touching the wall if you can.
4. Slowly slide your arms up the wall as far as they go without anything peeling off.
5. Slide back down to the goalpost position with control.
6. Repeat slowly, keeping ribs down and breathing steady.

Upper Trap Stretch - hold 30s

1. Sit or stand tall and let your right arm hang, or lightly hold the bottom of your chair.
2. Tilt your left ear toward your left shoulder without rotating your head.
3. Rest your left hand gently on the right side of your head - the weight of the hand is enough.
4. Feel the stretch along the right side of your neck into the top of the shoulder.
5. Hold, breathe slowly, then switch sides.

Doorway Pec Stretch - hold 30s

1. Stand in a doorway and place your forearms on the frame, elbows at shoulder height bent to 90 degrees.
2. Stagger one foot slightly through the doorway.
3. Gently lean your chest forward through the frame until you feel a stretch across the front of your chest and shoulders.
4. Keep your ribs down and core lightly braced - don't arch the lower back.
5. Breathe slowly and hold, then ease out.

Thread the Needle - hold 20s

1. Start on all fours with hands under shoulders and knees under hips.
2. Reach your right arm up toward the ceiling, opening your chest to the right.
3. Sweep the right arm down and thread it under your left arm, palm up.
4. Lower your right shoulder and ear toward the floor, hips staying high over the knees.
5. Breathe into the back of your ribs, hold, then unwind and switch sides.

Cooldown

Kneeling Hip Flexor Stretch - hold 30s

1. Kneel on your right knee with your left foot planted in front, both knees at about 90 degrees.
2. Stack your torso tall over your hips and squeeze your right glute.
3. Tuck your pelvis slightly, then shift your whole body a couple of inches forward.
4. Feel the stretch across the front of the right hip - not in the lower back.
5. Raise your right arm overhead for a deeper line of stretch if it feels good.
6. Hold, breathe, then switch sides.

Figure-Four Stretch - hold 30s

1. Lie on your back with both knees bent, feet flat on the floor.
2. Cross your right ankle over your left thigh, just above the knee, making a figure four.
3. Reach through the gap and clasp your hands behind your left thigh.
4. Pull the left thigh gently toward your chest until you feel a stretch deep in the right glute.
5. Keep your head and shoulders relaxed on the floor.
6. Hold, breathe, then switch sides.
